

Section 400: Students

**Playground Safety**

**Code #455.05**

The Tri-County Area School District Board of Education has, as one of its primary concerns, the safety, health and physical well being of students during normal school hours. To meet this concern, the Principals and staff shall develop and implement playground rules that:

- Protect the safety of students, employees and other persons present on District property and/or playground.
- Comply with safety regulations, state codes, and applicable local safety and health codes/regulations.
- Minimize mechanical hazards and unsafe conditions so as to prevent accidents.
- Instruct and inform students and employees of acceptable safety procedures and practices on the playground.
- Develop an attitude of safety-mindedness among students on the playground.

Principals and staff shall be responsible for the appropriate safety on the playground and shall establish rules and procedures related to maintaining a safe playground environment.
