

## Section 300: Instruction

### **Instructional Goals**

**Code #310.00**

Partnering with families and surrounding communities, the mission of the Tri-County Area School District is to inspire and prepare all learners to excel in an ever-changing global community.

The primary goal of education in the Tri-County Area School District is to create autonomous learners who are motivated to learn because of personal satisfaction gained from performing to the best of their ability.

Additionally, our vision of the future of the Tri-County Area School District includes the following instructional goals:

Develop students who will:

- Think critically and apply problem solving skills;
- Acquire knowledge to apply in their daily lives;
- Develop a sense of community which balances self-interest with the interests of others;
- Become concerned, caring, responsible people;
- Develop a healthy self-image;
- Communicate effectively both orally and in writing; and
- Continue to develop an understanding and application of technology.

Develop staff members who will:

- Commit to life-long learning and continue professional and personal development;
- Provide school work which motivates and challenges students to engage and be immersed with knowledge;
- Take risks, be innovative and share their successes and failures with others; and
- Model the behavior of learning, concern, caring, and responsibility desired in students.

Develop a district which will:

- Meet the learning needs of all students and staff including those with special needs, such as special education, ELL, migrant, homeless, and the economically disadvantaged, by supplying appropriate instruction tools, materials, and media;
- Provide assistive technology to any student or staff member that requires it;
- Support risk-taking, new concepts, and encourage innovation;
- Cooperate as a partner with parents and community organizations in the education of students;
- Celebrate student and staff success; and
- Emphasize life-long learning for all staff and students
